

New and Upcoming with *our developing world!*

Two opportunities to give Gifts of Giving \$25 for one certificate, \$45 for 2:

Help rural Cambodian families with the pre-schools and organic gardens they've built together. Funding is needed for the teachers for at least 150 children. In a society that's lost the grandparent generation this is vital. And pre-school is a major step on the road to education leading to a better life.

Support Alternatives to Violence (AVP) in South Africa and Botswana. We've seen this program transform lives and neighborhoods. AVP works in schools, neighborhoods and prisons turning people around by using their own experiences in anger management and alternative ways of responding.
